3- INSTALLATION

For install this plugin you must have a working version of WordPress already installed. Upon downloading the iThemeland WooCommerce Grid For VC archive, extract the archive and inside extracted folder you will find full contents of your purchase. iThemeland-WooCommerce-Grid-For-VC.zip archive contains the installable plugin files.

Please Note: You can install the plugin in two ways: inside WordPress, or via FTP. If you have trouble installing the theme inside WordPress, please proceed with installing it via FTP and you will be able to get around the issue

Installing from WordPress

Follow the steps below to install inside **Wordpress**

- Navigate to **Appearance > Plugins**
- Click **Install Plugins** and then **Upload**
- Navigate to **iThemeland-WooCommerce-Grid-For-VC.zip** on your computer and click **Install Now**
- To activate the newly installed plugin navigate to **Appearance > Plugins** select the **iThemeland WooCommerce Grid For VC** and press **Activate**
- After install, activate the plugin.

Installing via FTP Server

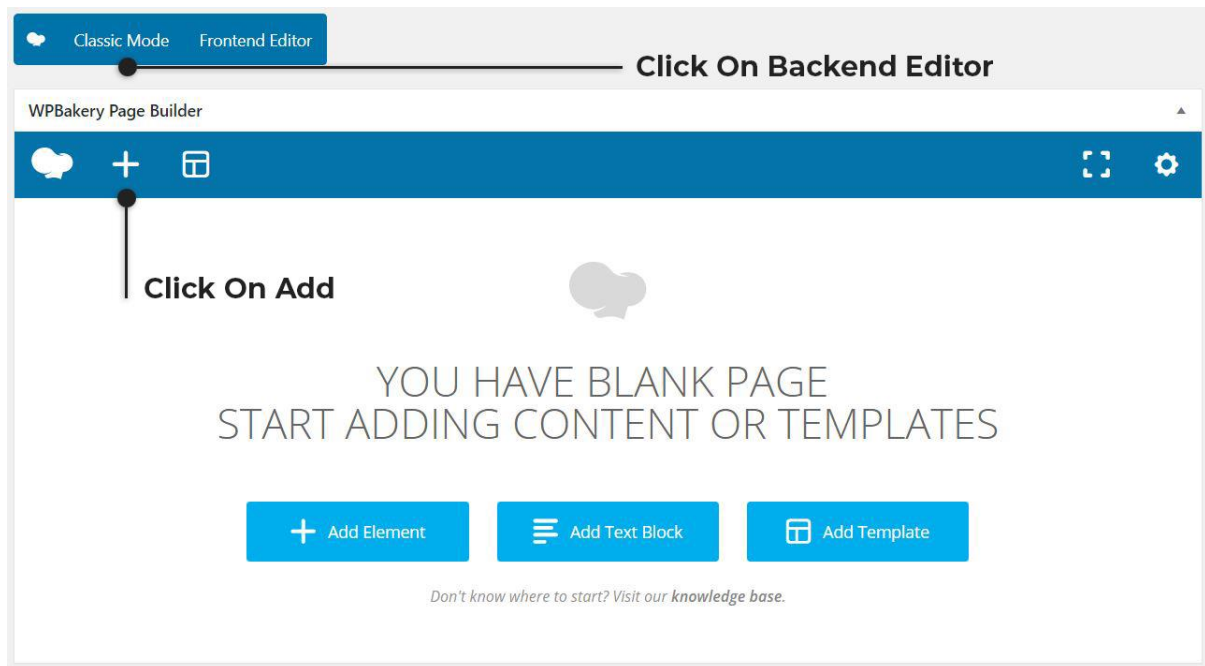

Follow the steps below to install via FTP

- Unzip **iThemeland-WooCommerce-Grid-For-VC.zip** to a desired location on your HDD. These extracted files will be uploaded later via FTP
- Connect to your server via FTP
- Navigate to **/wp-content/plugins/** on server
- Navigate to location of unzipped **iThemeland-WooCommerce-Grid-For-VC.zip**
- Upload local folder **/ iThemeland-WooCommerce-Grid-For-VC /** to remote **/wp-content/plugins/**

- To activate the newly installed plugin navigate to **Appearance > Plugins** select the **iThemeland WooCommerce Grid For VC** and press **Activate**
- After install, activate the plugin.

4-HOW TO USE

- 1- For create a new Grid click on backend editor and then click on “add new element”

- 2- Go to “All In One Puzzle” tab and click on “Grid”
