## 4-3- Use Shortcode On Page/Post

It's so simple.

After you make your shortcode on **Shortcode Generator** page, you can see your generated shortcode on **Shortcode Text** area. For using shortcode you must select and copy it and then paste into your favorite page/post.

## 4-3- Plugin Setting

On setting page you can set submission form setting. You can show/hide name, position, company, company website, email, rating, testimonial content and upload button with check/uncheck fields.

Also set a custom CSS class to submission form for styling your submission form.

After save settings, you can select and copy generated submission form shortcode to your favorite page/post.

After users fill and send testimonials it will add on Testimonial → List Testimonial and it's status is pending. You can edit testimonial and active it for view on front-end.
