- Upload local folder **/IT-WooCommerce-Advanced-Product-Labels /** to remote **/wp-content/plugins/**
- To activate the newly installed plugin navigate to **Plugins > Install ed Plugins** select the iThemeland WooCommerce Advanced Product Labels and press **Activate**

4- How To Use

You can define unlimited label with many configuration and rules.

4.1- Configure Global Labels

To start configuring a global product label, go to **WooCommerce -> Settings -> Product labels**.

The screenshot shows the 'Product Labels' settings page in WooCommerce. At the top, there are tabs for 'General', 'Products', 'Tax', 'Checkout', 'Shipping', 'Accounts', 'Emails', 'API', and 'Product Labels'. The 'Product Labels' tab is active. Below the tabs, the page title is 'Advanced Product Labels'. Underneath, there is a 'Labels' section with a table. The table has four columns: 'Title', 'Label', 'Type', and '# Groups'. There is one row with the title 'first', a circular '20%' discount label image, the type 'Image', and the number of groups '1'. Below the table is a button labeled 'Add Product Label'. At the bottom of the settings page, there are two checkboxes: 'Show/Hide labels on the fron-end.' and 'Show/Hide labels to on detail page.', both of which are checked. A 'Save changes' button is located at the bottom left of the settings area.

| Title | Label | Type | # Groups |
|-------|---|-------|----------|
| first |  | Image | 1 |

On this page you can set 2 settings:

Enable / Disable: Enable to display labels on the front-end.

Show on the detail page: Show the product labels also on product detail pages

And also see the **label(s) list** and create a new label by clicking the '**Add Product Label**' button. Also change order and delete other products.

After click on "Add Product Label" button you see this page:

Global Label conditions

To Show label on a product, it must be match with all these conditions:

| | | | | |
|------------------|------------------|--------|---|---|
| Product category | Equal to | Albums | + | ? |
| Price | Greater or equal | 10 | + | ? |

OR

| | | | | |
|------------------|----------|---------|---|---|
| Product category | Equal to | Hoodies | + | ? |
| Price | Equal to | 25 | + | ? |

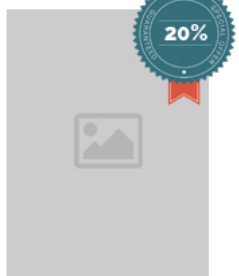

OR

Add 'OR' group

Global Label settings

| | |
|-----------------|---|
| Label type | Image |
| Label image |  + X |
| Label align | Right |
| Label Top | -20px |
| Label Right | -20px |
| Label CSS class | |

Preview Box

Product name

Global label edit screen

(In this example hoodies that cost more than \$25,- and albums over \$10,- will be given the 'Free Shipping label)

You can make special rules for each label. Our conditions are contain:

Conditions: Product category, Product, Product type, In sale, Best sellers, Product age and

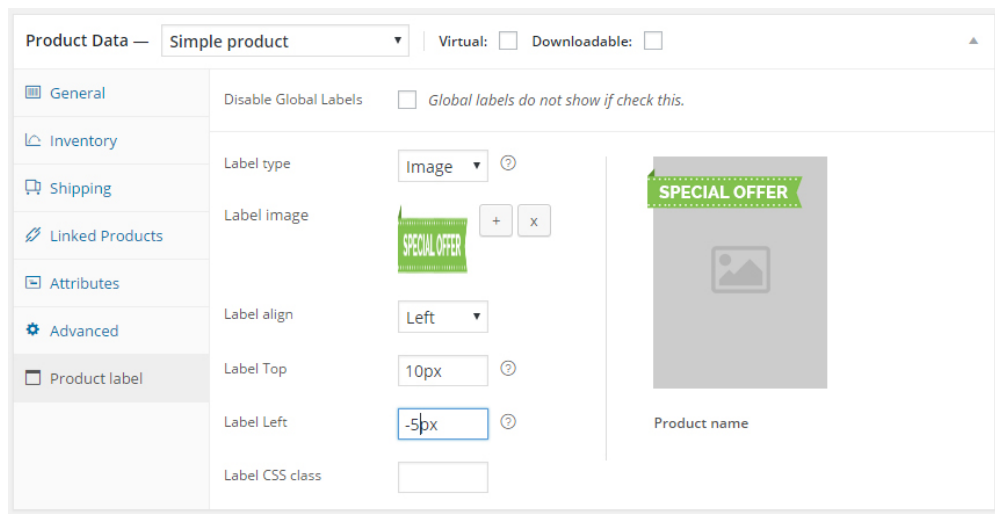

Attributes: Price, Sale price, Stock status, Stock quantity, Shipping class, Tag, Total sales, Featured product.

You can create condition group to have more flexibility on rule definition by clicking on “**add ‘or’ group**” button.

4.2- Configure Single Labels

Configuring single product labels is available on the **'Product data'** panel when editing a product. These settings are very similar to global labels settings. You can set a custom label for a specific product.

In this page you can hide global label(s) by check "exclude Global Labels".

The screenshot displays the 'Product Data' panel for a 'Simple product'. The 'Product label' section is active, showing various configuration options. On the left, a sidebar lists menu items: General, Inventory, Shipping, Linked Products, Attributes, Advanced, and Product label. The main area contains the following settings:

- Disable Global Labels:** Global labels do not show if check this.
- Label type:** Image
- Label image:** A preview of a green 'SPECIAL OFFER' label with '+' and 'x' buttons.
- Label align:** Left
- Label Top:** 10px
- Label Left:** -5px
- Label CSS class:** (empty field)

On the right, a preview shows the 'SPECIAL OFFER' label applied to a product image. Below the preview is the label 'Product name'.

Single label settings

4.3- label Settings

The following settings are both available in the global and single settings area.

- **Label type** : There are three label types (Label, Predefine Shape and Image).
 - **Label**: show label above product title
 - **Label shape** : You can select one predefine shape between 11 shapes. (circle ,oval, square, rectangle, cut diamond, round star, ribbon ,circle ribbon, diamond, triangle top left, triangle top right).
 - **Label image** : Choose image of Label.
- **Label text** : The text that show over label.
- **Label Style** : The style/color of the label.
